

# Stop Arming Israel

**Israel has violated more United Nations resolutions than any other country. Its increasingly bloody occupation of Palestine has deepened the crisis in the region.**

Yet the UK government continues to license the export of military equipment for use by Israel.

It also spends millions of pounds each year buying arms from Israeli companies which have been 'tested' in the laboratory of the Occupied Territories.

The notorious F-16 fighter jets and Apache combat helicopters used by Israel to bomb Lebanese and Palestinian towns and villages, and to maintain the ongoing occupation of the Palestinian Territories, rely on significant UK components.

In arming Israel the UK is both providing material support for its aggression and sending a message of approval for its actions. This must stop.

## Stop Arming Israel

Dear \_\_\_\_\_ (MP's name)

Despite ongoing human rights violations and the UK government's own arms export guidelines, the UK has consistently licensed exports to Israel for a range of military equipment. The notorious F-16 fighter jets and Apache combat helicopters used by Israel to bomb Lebanese and Palestinian towns, and to maintain the ongoing occupation of the Palestinian Territories, rely on significant UK components. The UK government also spends millions of pounds on weapons from Israeli companies which have been 'tested' in the laboratory of the Occupied Territories.

In arming Israel the UK is both providing material support for its aggression and sending a message of approval for its actions. I urge you to call for an immediate two-way arms embargo on Israel. Please show your support by raising this issue with the Foreign Secretary.

Yours sincerely,
